don't forget to order tubes and flaps with tyres – re-using old tubes and flaps may be a false economy

nb: Whilst the Excelsior brand is predominant, they are usually the current 'best deal' however other makes are available on indent, but invariably at a higher price – please ask if you would prefer an alternative make to that listed above.

nb: Some tyres which have been in constant production for some time are now being re-certified to acquire a Load/Speed index, in place of the ply-rating

RADIAL TYRES (BLACK):

in many cases a radial may be used as an alternative to the original cross-ply but only for 16" or less diameter rims, phone for advice:

ATLAS WHITEWALL TYRE TRIMS:

*Sometimes referred to as 'Flappers' or 'Clip-ons' the trims are a cheaper alternative dress-up item to moulded-in whitewalls. Prices are for a **4 piece set**, if additional trims ordered at the same time the price is pro-rata – fitting advice included. **Warning!** Whitewall trims are best fitted to cross-ply tyres, and do not always work well on radials. **DO NOT** fit to any radial of less than 70-series.*
